## Club Championships Rules & Conditions

On or about the end of September early October you will see all the entry forms for all events in our Club Championships posted on the notice boards within the club.

Prior to entering into those champs I wish to advise you of the recent changes to rules and conditions of play of those events.

Firstly – all entry forms will carry information about the play by or play on dates. Please consider those dates before you enter as failure to meet the required date will result in a forfeit for both players unless you can provide a compelling reason as to why you should not forfeit.

The other major change to conditions will be you are **no longer allowed to practice on the club greens on the day of a scheduled game**. Any official club organised practice will be exempt from this condition.

Finals and Semi-finals will be played on A green in club uniform (pennant uniform only) **all other games will be allowed on any green** in mufti. If you can't decide where to play contact your event manager. Men's and Women's open singles will be first to 25 shots. All other singles games will be first to 21 shots. Pairs, **Triples (new event)** and Fours will be over 15 ends with Grand finals over 18 ends.

Once your game has been organised please advise your event manager so it can be advised to members to allow spectators to watch. Once the game has finished please place the score card in the box to be provided on the wall near the jacks and mats box to be collected by tournament director.

Regards Bob Schultz  
Tournament Director
