

**Valley Red Dollars**

**CONGRATULATIONS TO  
OUR WONDERFUL  
VOLUNTEERS:**

**Doreen Michalski  
Rob Michalski**

A friend shared this joke with me recently:  
Old Bill had won every competition in the Club for many years and Jack could never beat him. Every time Bill stepped onto the mat, he took a little black book out of his pocket and read something and then bowled a dream bowl. Bill died and all the members asked his wife, could they have the little black book. She saw a chance to make some money, so she auctioned it. Jack paid a mottza for it and went home to read all of Bill's secrets. There was nothing but blank pages in the book until the last page where Bill had written, "The small circle goes on the inside".

**⚡ FYI: When the umpire of the day calls players from the green due to lightning, (verbally or by ringing a bell), all players must leave the green IMMEDIATELY, seek safe shelter and wait for 15 minutes from the last strike. You may not complete the end you are on. The end is considered dead and must be replayed. (Bob Schultz (I.T.O))**

**COACH'S CORNER: PETER BARRETT**

Hi everyone,  
Below are some questions that have arisen in the past and the answers to them

**Q. What's happening with bowls coaching these days & who needs a coach anyway?**

A. Even the best sports people need a coach, Champions like Tiger Woods when he was playing and when he's struggling with technique, regularly returns to his coach to check his game. Good Coaches these days don't just teach correct technique, in fact if a player's technique is not perfect, however he is playing consistently good bowls, there is no need to change the technique. *Consistency* is the key word. Coaches these days will espouse that players should always "train with a purpose", not just throw bowls down at practice. To train with a purpose means keeping score of your practice bowls so that you can highlight your weaknesses and slowly begin to improve your game.

**Q. I don't like Drills. Who needs them anyway? I'd rather practice on my own.**

A. Unfortunately drills are essential in any practice program. If you keep a score of your shots at practice, it will give you a baseline as to how you are bowling. It will help identify what shots you need to practice, more often, to become a more complete player. You can still do drills with your teammates and try and outdo each other, as well as improving at the same time. Always finish your training with simulated game play so that you put what you have practiced under game type pressure. Practice on your own particularly, if you are wanting to get something that's annoying you in your game correct.

Keep practicing with a purpose!

**Pennant afternoon teas at other clubs.**

FYI: there is a laminated list of what other clubs are providing for Wednesday & Saturday afternoon tea located on the wall outside the HVBC kitchen.

***This newsletter was kindly printed by Steve Murray,***

***Member for Davenport.***

**CORONAVIRUS  
and the HVBC**

Members and visitors are reminded to check in upon arrival with your QR code or manually by writing on a form inside the main club entrance or outside, where you can post your contact details in the post box located near the mats/jack cupboard. Please use sanitiser frequently. Mask wearing in Public Areas is still required whilst you are moving around the Clubrooms. You may remove your mask when you are seated and you have either some food or drink in front of you.

**CLUB COACHING:**

**Is accessible to all HVBC members. One on one sessions are available at a mutually agreed time between you & a Coach. Text Peter Barrett on 0402 590 903 & you will be contacted by a Coach to book a session.**

**Missing bowls & caddies.**

If you have these at home or in your car, could you please return 2 sets of size 4 orange Hensalite XG caddy numbers are 49 and 50. They are needed for Night Owls and for training purposes  
Thank you
